

exocad is a leading dental software company, continuously pushing the boundaries at the forefront of digital dentistry. Founded in 2010 as a spin-off of the world-famous Fraunhofer Institute for Computer Graphics Research and now part of [Align Technology](#), we develop CAD software solutions for the dental industry. Labs and clinics in more than 150 countries rely on our software portfolio to design and create both functional and esthetic dental restorations. Find out more about us and our products at [exocad.com](https://www.exocad.com).

To strengthen our Align/exocad Advanced Technology Development Team in Darmstadt we are looking for you as

## Senior Business Analyst (m/f/d)

As Senior Business Analyst you will be responsible for organizing the requirements, tests cases, regulatory documentation of key projects transitioning from our Software Research group into Production. You will help us organize and communicate, with the different teams in the enterprise from R&D to Legal to Regulatory and Operations. This role is involved in building documentation to coordinate complex regulated software projects as well as the product life cycle from planning and concept to product and feature requirements to the transition of projects to full development teams.

### In this role, you will...

- Partnering with Product Owners to ensure continuous refinement of backlog, which may include stories from multiple projects
- Deliver precise functional specifications to include functional hierarchy, workflow, business rules, interface design and definitions, outstanding issues, data analysis, and data mapping

- Be responsible for direct interaction with stakeholders including, but not limited to, eliciting comprehensive business requirements and use cases and recommending appropriate solutions
- Gather requirements and help build and document specifications for development.
- Conduct gap analysis between application and stated customer requirements and collaborate with Architects and Developers to estimate project impact
- Work with Development, QA, and Production Support teams to communicate, verify, and test the desired functionality changes
- Work with the stakeholders to demonstrate the changes to the system to ensure all relevant business needs are addressed
- Develop training materials and provide training in one-on-one or classroom environment
- Manage multiple competing priorities through effective organization and communication
- Recommend and institute BA best practice and methodology and tools
- Work within or across multiple project teams to ensure that blockers are resolved, and communication gaps are plugged quickly and efficiently
- Ensure quality and completeness of the finished product by participating in user acceptance testing, ensuring that acceptance criteria are met
- Working cross-functionally with the Clinical, Regulatory, R&D, Product Marketing, Customer Care, Sales teams to help drive innovation

## The personal requirements

- Minimum of 7+ years information technology experience in a growth environment
- Bachelor's degree or equivalent combination of education/experience in Computer Science, Information Systems, or related field
- Exceptional prioritization, proficient problem analysis, process, and project management skills
- Experience with Jira and/or other application lifecycle management tool
- Experience working in an Agile software development environment
- Strong collaborator able to contribute to a variety of tasks
- Superior interpersonal, oral, and written communication skills
- The ideal candidate must possess exceptional problem-solving and decision-making skills
- Excellent written and verbal communication skills in English, min C1

## What we offer you

- Exciting and wide range of tasks in a dynamic and growth-oriented software company
- Flat hierarchies and efficient decision-making processes
- A positive working atmosphere that promotes both individual freedom and responsibility
- Strong team spirit
- Modern offices and cutting-edge work equipment
- Flexible working and home office
- Education and training
- Sport and work life balance
- Free drinks and snacks
- Canteen with own cook
- Corporate events
- Job ticket
