

At Align Technology, we believe a great smile can truly transform a person's life, so we create technology that gives people the confidence to take on whatever's next. Since April 2020 exocad is part of Align Technology. Exocad is founded in 2010 as a spin-off of the world-famous Fraunhofer Institute for Computer Graphics Research and develops CAD software solutions for digital dental technology. International customers includes well-known companies in the dental industry. You can find more information about exocad on exocad.com.

Ready to join us?

To strengthen our development team in Darmstadt we are looking for you as

Software Development Engineer in Test (m/w/d)*

Join a team that is changing millions of lives. Transforming smiles. Transforming lives. Transforming an industry. exocad is looking for a Software Development Engineer in Test. To work on very interesting new features, in a variety of technologies and areas of expertise.

The team currently is distributed between Darmstadt and Tel-Aviv (Israel), so good English knowledge is a must have.

As a Software Development Engineer in Test, you work with a cross-functional agile team. Verify existing and new functionality, test robustness and performance of web applications, develop and use tools for testing automation.

Your key responsibilities include:

- Review and provide feedback on application requirements
- Develop tools and automated tests for back-end and front-end web applications
- Act autonomously, provide inputs and suggestions
- Setup and maintain reliable test environments to run within CI/CD pipelines
- Verify scalability, reliability, and performance of applications
- Help engineers writing maintainable code meeting high quality standards
- Work closely with other development teams to facilitate work efforts

Who we're looking for:

- 5+ years of experience in the software development industry
- Strong proficiency with manual and automated testing, development and use of tools for testing automation
- Good knowledge of JavaScript, TypeScript, and web technologies
- Good knowledge of software design principles
- Good knowledge of the software development process
- Good problem-solving skills
- Excellent communication and teamwork skills

What we offer you

- Exciting and wide range of tasks in a dynamic and growth-oriented software company
- Flat hierarchies and efficient decision-making processes
- A positive working atmosphere that promotes both individual freedom and responsibility
- Strong team spirit
- Modern offices and cutting-edge work equipment
- Flexible working and home office
- Education and training
- Sport and work life balance
- Free drinks and snacks
- Canteen with own cook
- Corporate events
- Job ticket

Want to join?

If this position excites you and fits your qualifications and professional goals, we look forward to receiving your application.
