Prosthetic Component Libraries

compatible to implant planning implants

Prosthetic component system	Library type	Lab analogs for Model Creator available
 Argon Dental Vertriebs Gesellschaft mbH & Co. KG		
K3Pro® KSA ScanCap	Titanium bases with variable angulation	
K3Pro® PreMill ClouScan	Direct connections with Premill blanks	
K3Pro® PreMill Scanbody	Direct connections with Premill blanks	
K3Pro® PreMill Triscan	Direct connections with Premill blanks	
K3Pro® PreMill TriscanLong	Direct connections with Premill blanks	
K3Pro® TiBase ClouScan KlickAnalog	Titanium bases with variable angulation	
K3Pro® TiBase Scanbody	Titanium bases with variable angulation	
K3Pro® TiBase TriScan	Titanium bases with variable angulation	
K3Pro® TiBase TriScanLong	Titanium bases with variable angulation	
 Alpha-Bio Tec Ltd.		
CS System	Titanium bases, Direct connections with Premill blanks	●
IH & CHC System with 7 mm Scanbody	Titanium bases, Direct connections with Premill blanks	●
IH & CHC System with 10mm Scanbody	Titanium bases, Direct connections with Premill blanks	●
 Anthogyr SAS		
Labside DT - System	Titanium bases	●
Labside SA - System	Titanium bases	●
 ARGEN Dental GmbH 1/2		
ICS Hybrid 3i CE - H	Titanium bases	
ICS Ti 3i CE - H	Direct connections with Premill blanks	
ICS Hybrid ALT CB - CAM	Titanium bases	
ICS Ti ALT CB - CAM	Direct connections with Premill blanks	
All prosthetic components from this list can be used for the design on compatible explan implants within our Immediate Load workflow.		

ADMIM-prosthetic_components_libraries-en_revision 2020-04-16

Prosthetic component system	Library type	Lab analogs for Model Creator available
 ARGEN Dental GmbH 2/2		
ICS Hybrid BRE SY - BRE	Titanium bases	
ICS Ti BRE SY - BRE	Direct connections with Premill blanks	
ICS Ti BRE SY - BRE	Titanium bases	
ICS Ti DSP XV - T	Direct connections with Premill blanks	
ICS Hybrid MIS SVN - MIS	Titanium bases	
ICS Ti MIS SVN - MIS	Direct connections with Premill blanks	
ICS Hybrid STR BL - L	Titanium bases	
ICS Ti STR BL - L	Direct connections with Premill blanks	
ICS Hybrid STR SYN - N	Titanium bases	
ICS Ti STR SYN - N	Direct connections with Premill blanks	
ICS Hybrid TM S - THO	Titanium bases	
ICS Ti TM S - THO	Direct connections with Premill blanks	
 BEGO Implant Systems GmbH & Co. KG		
Klebebasis PS TiB	Titanium bases	
One Care Package	Titanium bases	
Sub-Tec CAD-CAM Klebebasis	Titanium bases	
 BHS30 powered by Target3D 1/2		
NB REP System	Titanium bases and Direct connections with variable angulated screwchannel	
AS System	Titanium bases and Direct connections with variable angulated screwchannel	
AS Type2 System	Titanium bases and Direct connections with variable angulated screwchannel	
CWM EXT System	Titanium bases and Direct connections with variable angulated screwchannel	
All prosthetic components from this list can be used for the design on compatible exoplan implants within our Immediate Load workflow.		

ADMIM-prosthetic_components_libraries-en_revision 2020-04-16

Prosthetic component system	Library type	Lab analogs for Model Creator available
 BHS30 powered by Target3D 2/2		
STR TL System	Titanium bases and Direct connections with variable angulated screwchannel	
CWM INT System	Titanium bases and Direct connections with variable angulated screwchannel	
STR BL System	Direct connections with variable angulated screwchannel	
 bredent group		
elegance Prefab System	Direct connections with Premill blank and angulated screwchannel	
mini²SKY System	Titanium bases, Direct connections with and without Premill blanks	
SKY System	Titanium bases, Direct connections with and without Premill blanks and angulated screwchannel	
whiteSKY System	Titanium bases	
 Bicon Dental Implants		
SHORT[®] System with Fixed-Detachable MU	Multi Unit with and without angulation	●
SHORT[®] Sytem with Stock Abutment	Stock abutments with and without angulation	●
 Bionnovation[®]		
Biomorse - System	Stock abutment	●
 CAMLOG Vertriebs GmbH 1/2		
CAMLOG gingiva former - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
CAMLOG one-piece abutment - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
CONELOG gingiva former - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
CONELOG one-piece abutment - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
iSy (multi-cap) gingiva former - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
iSy (multi-cap) one-piece abutment - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
iSy (scanbody) gingiva former - System (CAM Ti-Blank type IAC-ME)	Direct connections with Premill blanks	
All prosthetic components from this list can be used for the design on compatible exoplan implants within our Immediate Load workflow.

T-IO-9200 OSS TS	Direct connections with and without Premill blanks	
All prosthetic components from this list can be used for the design on compatible explan implants within our Immediate Load workflow.		

ADMIM-prosthetic_components_libraries-en_revision 2020-04-16

Prosthetic component system	Library type	Lab analogs for Model Creator available
 Target 3D 2/3		
T-IO-9500 MIS SVN	Direct connections with and without Premill blanks	
T-IS-1300 KL E	Direct connections with and without Premill blanks	
T-IS-2200 DS XI	Direct connections with and without Premill blanks	
T-IS-4300 DT	Direct connections with and without Premill blanks	
T-IS-5300 OSS SS	Direct connections with and without Premill blanks	
T-IS-6300 ANTH AX	Direct connections with and without Premill blanks	
T-IS-7100 STR TL	Direct connections with and without Premill blanks	
T-IS-7200 CL SL	Direct connections with and without Premill blanks	
T-IS-8100 STR BL	Direct connections with and without Premill blanks	
T-IS-8300 BRE SY	Direct connections with and without Premill blanks	
T-IS-9200 OSS TS	Direct connections with and without Premill blanks	
T-IS-9500 MIS SVN	Direct connections with and without Premill blanks	
T-T-1300 KL E	Direct connections	
T-T-2200 DS XI	Direct connections	
T-T-4300 DT	Direct connections	
T-T-5300 OSS SS	Direct connections	
T-T-6300 ANTH AX	Direct connections	
T-T-7100 STR	Direct connections	
T-T-7200 CL SL	Direct connections	
T-T-8100 STR BL	Direct connections	
T-T-8300 BRE SY	Direct connections	
All prosthetic components from this list can be used for the design on compatible explan implants within our Immediate Load workflow.

 Thommen Medical		
Milling Abutment System	Direct connections with Premill blanks	●
Ti-Base System	Titanium bases	●
VARIOflex System	Titanium bases	●
 TRI Dental Implants		
Milling Blank System	Direct connections with Premill blanks	●
TiBase Multiunit System	MultiUnits and Titanium bases with and without angulated screwchannel, Direct connections	●
 Weihai WEGO Jericom Biomaterials Co., Ltd.		
Dental Implant System	Titanium bases, Direct connections	
All prosthetic components from this list can be used for the design on compatible exoplan implants within our Immediate Load workflow.
