EXOCAD SUPPORTS OVERLAND FOR SMILE (ONLUS) TO PROVIDE DENTAL CARE FOR DISADVANTAGED KIDS IN EASTERN EUROPE

DARMSTADT, Germany – January, 28 2021 -- exocad GmbH, an Align Technology, Inc. company, today announced its 2020 holiday contribution to the non-profit organization "Overland for Smile (ONLUS)" which it has supported since 2018. exocad's donation is estimated to help support dental care for more than 160 disadvantaged children and teenagers in Eastern Europe.

A portion of the donation includes proceeds from the charitable T-Shirt campaign during the two-day exocad Insights event in September 2020, which featured two key slogans "JUST CAD IT" and "arCADe champion" created specifically for this campaign and printed on purple T-shirts.

"We are very pleased with the proactive support and donations we have received from exocad," reported Cinzia Prazzoli, President and General Manager of ONLUS, continuing: "With the donated amount, we can ensure providing dental care for a total of 166 children and teenagers from orphanages across Eastern Europe."

ONLUS has operated a mobile dental practice since 2005. Dedicated teams, each consisting of ten doctors and support volunteers, regularly drive to different Eastern European areas to provide dental care to children and teenagers from the orphanages free-of-charge. The modern dental equipment within its vehicles and other necessary dental supplies are financed by donations, like those provided by exocad. The teams supporting these missions also donate their time. To date, almost 29,000 children and teenagers have received complimentary dental exams and over 11,000 have received dental treatment.
